

MISSION HILLS CONDOMINIUM ASSOCIATION HURRICANE SHUTTER POLICY STATEMENT

To ensure uniformity in the appearance of Mission Hills Condominium units, the Board of Directors has established this policy for hurricane shutters in accordance with Florida State Statute 718.113, section 5.

If an owner desires to install hurricane shutters on his/her unit, the installation may be done on the outside or the inside of the unit.

If on the outside, the owner must first contact the Mission Hills office. Any owner(s) interested in installing exterior hurricane shutters must obtain descriptions and specifications of shutters that are suitable for use on their specific units.

The purchase, upkeep, and maintenance of hurricane shutters shall be the responsibility of the owner(s) of the units on which they are installed.
