

MISSION HILLS CONDOMINIUM ASSOCIATION TRASH AND RECYCLING

All receptacles are usually located in your carport area or on the other side of the 3 pack or breezeway immediately adjacent to your carport.

TRASH ..

- Large green cans are for household trash and garbage. Secure the latch and report broken latched by filling out a Work Order online or manually using the form in the clubhouse lobby.
- Syringes must NOT be placed in the trash. They are hazardous waste and your doctor or the county health department can assist with their disposal.

RECYCLING ..

- All recycled materials must be empty, dry and un-bagged. Nothing smaller than your hand should be placed in the recycling bins.
- If you only have three (3) yellow recycle bins, glass and cans go into the same bin. Allowable items for recycling are listed below:
 - 1 .. Metal: only food and drink cans
 - 2 .. Glass: only bottles and jars
 - 3 .. Plastic: only bottles and jugs
 - 4 .. Paper and Cardboard: no food contact, no shredded paper
 - 5 .. Cartons: milk and drink cartons .. no straws
 - 6 .. All items must be clean

Heavy cardboard cartons should be folded down and placed next to the bins.

OTHER SUGGESTIONS ..

- Plastic shopping bags and Styrofoam containers are NOT recyclable. They can be taken to various area stores.
- Electronic items can be dropped off at the Clearwater Collection Site on North Hercules on the last Wednesday of each month.
- Put garbage and recycling out from Monday morning through Friday. Collection takes place on Mondays, Wednesday, and Fridays.
- It is your responsibility to have all household furnishings and remodeling debris removed from the property, not dropped off the the compactor or in trash containers. **THIS INCLUDES ALL DEBRIS SUCH AS SCRAPS OF WOOD AND/OR NAILS!**
- Small household furnishings and remodeling debris may be dropped off at the compactor in the maintenance area by the clubhouse.

WHEN IN DOUBT, THROW IT OUT!!
